## **REPORTINGMD RELEASES NEW VERSION OF SOFTWARE TO ASSIST PROVIDERS IN MANAGING PATIENT OUTCOMES AND INCREASING QUALITY PERFORMANCE.**

---

**Dartmouth-Lake Sunapee:** ReportingMD, a national leader in quality reporting has released version 8.1 of their Total Outcomes Management (TOM) application, greatly improving population health outcomes management.

The TOM version 8.1 product release is intended to improve your user experience while maintaining the reports you are familiar with. Below is a general list of the upgrades in this release:

- Meaningful Use enhancements
- ACO enhancements
- PQRS enhancements

TOM supports Physician Quality Reporting System (PQRS), Group Practice Reporting Option (GPRO) PQRS, Value Based Payment Modifier (VBM), Meaningful Use, and Accountable Care Organization (ACO) reporting. TOM v9 for Meaningful Use is ONC-certified to submit all 64 eCQM measures through the 2016 reporting year.

### ***About ReportingMD***

ReportingMD, a CMS qualified registry and an ONC certified company, is a national leader in quality reporting. The company has successfully managed

quality outcomes data for thousands of providers under various quality programs including ACO, PQRS, VBM, HEDIS (STARS), and MU. ReportingMD is devoted to helping their clients excel in an increasingly data-centric and value-focused environment. To learn more, visit [www.ReportingMD.com](http://www.ReportingMD.com).
