

## Senior SQL Server Developer

### ReportingMD

**JOB TITLE:** Senior SQL Server Developer

**FLSA STATUS:** Salaried, Exempt

**REPORTS TO:** Director of Technology

**SUPERVISION EXERCISED:** None

#### **GENERAL SUMMARY OF DUTIES:**

The Senior SQL Server Developer will serve as a resource to ReportingMD regarding SQL server design specifications and development, SQL data logic, documentation, SQL testing and tuning for optimal SaaS performance in a multitenant application. Duties include performing analytical, SQL coding and software development for ReportingMD and their clients. The Senior SQL Server Developer should have an EXPERT understanding of MS SQL Server providing Scalable High Performing automated multi-threaded ETL processes as well as High Availability for a SaaS application.

#### **SUMMARY OF DUTIES RESPONSIBILITIES:** (but not limited to)

- Design, develop, and test highly complex BI solutions on the Microsoft Business Intelligence stack (SSRS, SQL Server Database, SSIS, SSAS and Power BI)
- Design, develop and test high-quality automated Extract, Transformation and Load (ETL) processes, programs and scripts to migrate data from source systems into the Data Warehouse and Data Marts.
- Extract complex data from multiple data sources into usable and meaningful reports and analyses by implementing stored procedures and SQL queries
- Provide ongoing performance monitoring and tuning and production support related to Data Warehouse, Data Mart, ETL and BI Reporting environment in a DevOps environment
- Work in conjunction with BI Analysts and Business users acting as a liaison between technical and business teams in developing dashboards, data visualizations, analytics and other BI related solutions.
- Troubleshoot data integration and data quality issues and bugs, analyze reasons for failure, implement optimal solutions, and revise procedures and documentation as needed
- Create data-dictionaries of key tables and libraries within the data-warehouse and data marts.
- Develop and implement BI Standards and Best Practices based on DevOps and OOP tenets
- Other duties as assigned

#### **MINIMUM JOB REQUIREMENTS AND QUALIFICATIONS:**

- 8+ years proven expertise on the Microsoft BI Stack (SSRS, SQL Server Database, SSIS, SSAS and Power BI)
- 8+ years proven experience in database programming including scalable and high performance ETL, High Availability multitenant SaaS applications, complex SQL queries, complex stored procedures, database performance tuning and optimization on SQL Server database platform
- Experience in roles where multi-level staff or client interaction is required
- Experience with Telerik preferred.
- Healthcare industry experience preferred.

#### **KNOWLEDGE, SKILLS AND ABILITIES REQUIRED:**

- BS degree in Business, Computer Science, Engineering, Information Systems or related field (or equivalent experience)
- Strong knowledge of Data Warehouse Architectures.
- Ability to take initiative and lead technical projects end-to-end.
- Excellent interpersonal, listening, verbal, and written communication skills.
- Ability to communicate technical details to technical and non-technical resources.
- Excellent organization and prioritization skills with strong ability to multi-task and shift focus as necessary to meet deadlines on an Agile Scrum Team
- Ability to support Production Support and Development tasks
- Demonstrated ability to drive to deadlines, balancing multiple priorities, and ensuring quality standards
- Excellent analytical, problem-solving, and innovative thinking skills.
- Healthcare industry experience preferred.

**TYPICAL PHYSICAL DEMANDS:** Requires prolonged sitting, some bending, stooping and stretching. Requires eye – hand coordination and manual dexterity sufficient to operate a keyboard, photocopier, telephone, calculator and other office equipment. Requires normal range of hearing and eye sight to record, prepare and communicate appropriate reports. Lifting of equipment not to exceed 20 pounds.

#### **WORKING CONDITIONS AND PHYSICAL EFFORT:**

- Work is normally performed in the office work environment, although some virtual work is permissible
- Very limited physical effort required
